English

Urdu

OVERVIEW

Graduate in Software Engineering with strong knowledge of Python, Django, JavaScript, and modern web development technologies. I have hands-on experience in building web applications and APIs using Django and DRF. Passionate about learning new technologies and improving my development skills. Seeking an opportunity where I can grow as a developer and contribute to real-world projects.

EXPERIENCE

Software Developer (Intern → Junior Developer)

Logicexer, may2024 – Dec 2025

- Built and maintained Django-based web apps for internal tools and clients.
- Designed and implemented REST APIs using Django REST Framework.
- Improved UI using Bootstrap 5 and responsive design principles.
- Collaborated with team to maintain apps and fix bugs quickly.

PROJECTS

- **HRM Backend** – Developed REST APIs for HRM system with authentication and role-based permissions. (Django, DRF)
- **University Agent System** – Platform to manage student profiles, applications, and agent interactions. (Django, DRF, Bootstrap)
- **School Management System** – For managing students, teachers, and attendance with role-based access. (Django, DRF, Bootstrap)
- **Portfolio Website** – Responsive personal portfolio to showcase skills and projects. (HTML, CSS, Bootstrap 5)

AVAILABILITY

- Immediately available for full-time work
